New York Financial Circles Have Not Been So Stirred

It Is Tremendously Altered by the Recent Sea Victory.

IN NUMBER OF YEARS CAN CLOSE UP PORTS.

One Report Has It That Mr. Hyde Favors Equitable Assisting Gould Extend His Railroads to the Pacific Coast.

Ships Sent Northward After Recent Naval Engagement In Search of Fleeing Russian Vessels Did Not Find Any.

New York, June 3.—Not since the Great Northern corner of four years ago has there been so much excitement in financial circles as there existed Saturday as the result of Friday's development in the Equitable Life Assurance Society's affair. A stirring contest for control has been expected, but the vehement debate in the directors' meeting, bitter character of defense made by James B. Hyde and resignations of Messrs. Frick, Harriman and Bliss from the society's directorate have created a situation wholly unforeseen and indicating a new alignment of forces in high finance astonishing to the general public. According to the Herald, Mr. Frick in handing in his resignation said he never again would sit as a director in any corporation in which Mr. Hyde was also a director. The charge made by Mr. Hyde that an effort had been made by Mr. Harriman to take control of the society away from him was pointed to in connection with reports circulated Friday night that one reason for attacking Mr. Hyde was that he was friendly to George J. Gould, and the other interests desired to prevent Mr. Gould from obtaining any assistance from Equitable funds in extending his railroad lines westward to the Pacific coast and eastward to the Atlantic. According to these reports the Union Pacific and Pennsylvania railroad interests and Mr. Frick joined together to oppose Mr. Gould.

Mr. Gould attended the conference in Mr. Hyde's office Friday and considerable surprise was expressed when it was found Mr. Harriman, who, up to that time, had been counted upon as a Hyde supporter, was not present. A semi-official statement has been made that Mr. Gould expects to have his lines finished to San Francisco bay before June 1, 1907.

What Wall street and the general public discussed with the most interest was the question as to what is to be the next step taken. The selection of a new chairman of the board of directors, who is to be named by the committee within the next few days, is awaited with great interest. The promise has been made that he is to be a man of national reputation, noted for business ability and probity, and to him is to be entrusted the task of enforcing economies and making such other changes as may be deemed necessary to correct the present business methods of the society. It is expected the chairman will be elected by the board at its meeting next Wednesday.

Another point of absorbing interest was the plan to be pursued to take over Mr. Hyde's majority holding of stock, through which he has power, at present, to elect all the directors of the society. Mr. Hyde acquiesced in the decision that he be requested to divest himself of the control of his stock within three months on terms satisfactory to himself and the society. Attention was drawn to the fact that Hyde in agreeing to this resolution, declined to give any pledge as to his action in the matter.

Wall street discussed also the action of Jacob H. Schiff, head of the firm of Kuhn, Loeb & Co., in defending Second Vice President Tarbell. Mr. Schiff's firm has acted for years in close relation with Mr. Harriman.

FRICK RESIGNS.

"Everything Seems to Be Going Mr. Hyde's Way," Says Ingalls.

New York, June 3.—M. R. Ingalls and A. J. Cassett left the directors' meeting Friday morning. Life Assurance Society week including Miss Frances Gibson of Calvert, Miss Louise Brown of Houston, Miss Bramlette of Stephenville, Mr. B. F. Hardy of Fort Worth and Mr. B. F. McNulty of Austin and others. Elksdom friends of Mr. Howell.

T. R. Batte & Co. sold the D. E. Batte lots, near R. S. Webb's real estate, to R. M. Wilson. Some members of the committee would resign from the board if the committee's report was not adopted by the board.

Mr. Ingalls was quoted as saying that a motion to adopt the report of the Frick committee was defeated by a vote of twenty-four to fourteen, and that the twenty-four votes in opposition included nineteen directors, who are officials of the company. The Frick report, it has been ascertained, recommended the removal of President Alexander, Vice-President Hyde and Mr. Tarbell.

Will Attend.

Washington, June 3.—It is announced at the war department that Lieutenant General Chaffee, chief of staff, and Brigadier General William Crozier and J. Franklin Bell will represent the United States at the maneuvers of French troops. The invitation sent United States army officers to that country was extended Secretary Taft by the French ambassador.

Tokio, June 3.—With the destruction of Russia's naval power interest returns to military operations on land. Togo's victory tremendously alters the military situation, and removes all limits of offensive operations against Russia's maritime provinces. It is now possible to effectively close Vladivostok, seize Sakhalin, the mouth of the Amur river, Kamchatka and any point between the Tuman river and the Arctic circle that Japan may desire. A foreign military observer, discussing the question with the correspondent of the Associated Press, says:

"Togo's victory may drive Russia away from the Pacific coast of Asia. Japan now has a free hand in Russia's maritime provinces, and offensive capability is unlimited. Nothing bars the way except the Russian force at Vladivostok, whose speedy isolation is possible. The Amur river is open to Japan, and Russia's defensive capability is now entirely limited to the capacity of the Chinese Siberian railway."

Admiral Togo, telegraphing Friday, says: "The ships sent northward to search for Russian ships have returned. The cruisers Iwate and Jukimo and other vessels sent southward to find Russian ships, returned Friday. They thoroughly searched the Shanghai course from Taushim and vicinity, but on neither side found no trace of the Russians."

Admiral Shimamura, on the cruiser Iwate, reports: "During the battle of May 27, at 3:07 p. m., the cruiser Iwate vigorously attacked the protected cruiser Jemchug at a distance of 3000 metres. The Jemchug sunk in one minute. The loss of the Jemchug is, therefore, confirmed."

"During the engagement fire broke out on the Jemchug and smoke concealed the hull of the vessel. Consequently the remainder of our fleet was unable to see the ship."

ACTION TAKEN.

President Expresses Hope That Peace Will Be Brought About.

Washington, June 3.—The president struck a blow for peace in the far east. In a conference Friday at the white house with Count Cassini, the retiring Russian ambassador, the president expressed the earnest hope that Russia would forthwith conclude peace with Japan. Prolongation of the war, he declared, will not result in a victory for the Russian arms, and can only serve to increase Japanese victories and render more difficult the drafting of a treaty of peace which the czar, as well as the mikado, can sign. The president spoke, he said, as the friend of Russia no less than of Japan, and on behalf, not only of the Washington government, but in the interest of humanity.

His words have been communicated to Emperor Nicholas in the friendly spirit in which they were uttered. Their effect cannot be estimated.

Lighthouse Memorial.

Tokio, June 3.—In response to thousands of suggestions and inquiries received, the navy department has decided to erect an enormous lighthouse on Okino Island as a monument to commemorate Admiral Togo's great naval victory. It is planned to have the light show for a distance of eighty miles, practically covering the entire scene of the battle.

Japs Begin Advance.

St. Petersburg, June 3.—General Linevitch, in a dispatch to the emperor, dated May 31, says: "On May 29, the Japanese began an advance and attacked our troops in the valley of the Tzin river about three miles beyond Fenshu Pass, which remained in our hands."

Troopers Injured.

Paris, June 3.—As King Alfonso was leaving the Theater Francaise the horses of his escort shied, throwing and slightly injuring the troopers who were riding them. The mishap occurred within a few yards of the recent boom outrage.

Immense Capitalization.

Trenton, N. J., June 3.—The Seaboard company filed a certificate with the secretary of state increasing its capital stock from \$40,000,000 to \$72,000,000. Of this amount \$18,000,000 is first preferred stock, \$18,000,000 second preferred and \$36,000,000 common.

Resting Well.

Tokio, June 3.—Rear Admiral Rojestvensky is resting well with no dangerous symptoms and his speedy recovery seems certain.

Slept Fifty-Eight Days.

Yonkers, N. Y., June 3.—Joseph Canoki, six years old, he has been ill 15th spinal meningitis, has slept fifty-eight days.

Had Torchlight Procession.

Honolulu, June 3.—Japanese here celebrated recent naval victory by a torchlight and lantern procession. Four thousand participated.

HEAP BIG INJUN PLAY HERE MONDAY.

The famous Sioux Indian base ball club will arrive in Bryan over the H. & T. C. sometime today, and if the weather is favorable Monday they will go after the scalps of the local paleface club.

The idea of playing base ball at night originated some few years ago with the management of the Indians and a contract was let with a large electrical manufacturing company in Pittsburg for a plant to make a test case which proved so satisfactory from the start that the plant was increased to ten more lamps which are now sufficient to light the grounds and make it possible to play ball at night. Harry Homewood, the owner of the team, will not play Sunday base ball unless the grounds are located away from the residence portion of the town in which they are to play—this because he does not want to interfere with the churches which may have services during the afternoon, and for this particular reason the club will not play ball today, as their advance representative turned down several towns that wanted them for this Sunday, their reason being their grounds were located too close to the churches and the Indian management would rather lay off than put up a ball game where it would likely conflict with church services.

HOW GERMS ENTER THE SYSTEM.

Have No Bad Effect Upon People With Good Digestion.

Like a thief in the night, unheralded and unsought, the disease germ steals into the system under cover of the air we breathe, or our food and drink.

If this germ finds a weak stomach and digestive system, he at once sets up housekeeping, with the result that his landlord has a serious illness.

On the other hand, if the stomach where the germ finds lodgment is strong and healthy through the use of Mi-o-na, the injurious effect of the disease germ is at once neutralized, or the germ itself is driven out of the system. Keep the digestion good by strengthening the stomach and intestines with Mi-o-na, and there need be no fear of what disease germs will do.

If you suffer with headaches, indigestion, flatulency, specks before the eyes, vertigo, heart-burn, dizziness, or have a variable appetite, and a general feeling of despondency and weakness, you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful doses with this remedy. Just one small tablet out of a fifty cent box, before each meal, and your stomach will soon become so strong and healthy that you can eat anything you want without fear of distress, and will be germ proof.

Ask E. J. Jenkins to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it cures.

Mrs. P. S. Tilson and Miss Grace Norrell of Houston will be guests of Mrs. M. Parker for commencement week. Miss Ann Hardy of Calvert will visit Miss Irma Harris. Mrs. C. N. Williamson of Fort Worth will be with Mrs. Seth Mooring, and Miss Allen of San Antonio with Miss Sallie Johnson.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete much instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.
